―――――――――

COMPLICATION

―――――――――

Medicae – 'I can't find this last bleed!'

Cog. Hack – 'I have to search 1000 lines of code to find the spare comma'

Security – 'Why is the code defaulting to 1-2-3-4?'

Mechanics – 'Where did I put that tool…'

―――――――――

COMPLICATION

―――――――――

Medicae – 'This spleen is in the way, can someone hold it?'

Cog. Hack – 'Debugging is taking a while'

Security – 'Password is a terrible password… what should I use?'

Mechanics – 'Threading is stripping instead of tightening.'

―――――――――

COMPLICATION

―――――――――

Medicae – 'There is a splinter in here somewhere….'

Cog. Hack – 'The debugger froze, I have had to restart it'

Security – 'What do you mean the password did not match?!'

Mechanics – 'When in doubt, hit it.'

―――――――――

COMPLICATION

―――――――――

Medicae – 'I nicked an artery!'

Cog. Hack – 'Whoever wrote this was an illiterate programmer!'

Security – 'This has reset all its security procedures.'

Mechanics – 'Hairline crack in the casing, I will have to replace the whole thing!'

―――――――――

FAILURE

―――――――――

Medicae – 'Cardiac Arrest!'

Cog. Hack – '10,000 lines of code that are rewriting themselves as we go!'

Security – 'unauthorised access…. Explosion imminent.'

Mechanics – 'Someone jury rigged this the wrong way, Ill have to jury rig the jury rig.'

―――――――――

SUBTRACT 1 GAINED
SUCESS

FAILURE

―――――――――

Medicae – 'That looks like dirt in here now, going to have to reclean everything else they will get sepsis.'

Cog. Hack – 'Your connection is severed. All changes reset.'

Security – 'Retinal scan required. Retinal scan not accepted..'

Mechanics – 'These wires are a mess, it will take me a minute to untangle

―――――――――

SUBTRACT 1 GAINED
SUCESS

CRITICAL FAILURE

Medicae – 'I need another Medic! This patient is seriously wounded.'

Cog. Hack – 'Everything just reset!'

Security – 'All security reset.'

Mechanics – Snap…. 'Oops!'
